Use pages 63-70 and your knowledge from class to answer the following:

1) List the 5 climate zones.

2) Which 2 climate zones can be anywhere? (found at any latitude?)

3) List the different climate types found in each zone:

LOW

1.

2.

MID

1.

2.

3.

4.

HIGH

1.

2.

3.

DRY

1.

2.

HIGHLAND

1.

2. Plateaus

4) Define (use the glossary or find the blue words in p. 63-70):

canopy-

tundra-

permafrost-

steppe-

timberline-
